

Paul V. Murray,
L.Ac., FABORM,
CNC

Board-Certified Specialist in Acupuncture for the natural enhancement of Female and male Fertility

Q) Why consider acupuncture in conjunction with your reproductive endocrinologist?

A) Numerous studies demonstrate that acupuncture can help increase conception rate. Please see www.acuforconception.com to view these studies.

Q) Why should you choose our group?

A) Dr Lin and Paul Murray are board certified in fertility and acupuncture. Dr Lin is one of the founding board members and Paul is an advisory board member for ABORM (the American Board of Oriental Reproductive Medicine). ABORM was formed by the world's leading experts in Oriental Reproductive Medicine. See www.aborm.org.

Q) Where are we located?

A) We are conveniently located in Lone Tree-two block south of Park meadows mall. Please see www.acuforconception.com for directions.

Q) When should you start acupuncture treatments?

A) In general, it is a good idea to come in as soon as possible to begin treatments. Please use the \$50 off Initial Evaluation and Treatment coupon to schedule a session with an acupuncturist. The acupuncturist will discuss a treatment plan specifically to suit your needs.

Q) What conditions can acupuncture benefit?

A) Stress, unexplained infertility, menstrual cramps, hormonal imbalances, irregular periods, age, high FSH, old eggs, recurring miscarriage, thin uterus lining, male factor infertility, POF, PCOS, poor responders, and depression. Please see www.acuforconception.com for more information and studies.

Q) Do we accept insurance?

A) Yes. We are in network with United Health, Blue Cross, Aetna, Great West and more. We will bill your insurance carrier if you have acupuncture benefits. Please call **303-4HEALTH** and we will be happy to check on your insurance benefits for acupuncture.

Q) Are you available on short notice?

A) Yes. We have six acupuncturists on staff and are open seven days per week. This allows us to fit in last minute acupuncture appointments to support your pre and post embryo transfer.

your initial visit.

"After trying for almost two years before coming to see you, it was to my surprise & excitement that your treatments worked for me after the first month".

K.D.

Dr Lin and Paul Murray have the Experience, Training & Qualifications You can trust

Recent research has found that complementary healing modalities can be important adjuncts to traditional infertility treatments including in-vitro fertilization. Acupuncture, massage, and hypnosis as well as nutrition and stress-reduction counseling may enhance treatment outcome.
